### **PRESIDENT'S MESSAGE**

I am very pleased, on behalf of the Stampeders Hockey Club executive, to welcome back to the Peace River club the former members of the team and also the new arrivals on our roster.

Our executive has performed considerable work during the past few weeks in an endeavour to provide a team whose colour and performance will, we hope, increase and maintain local fan interest in N. P. H. L. proceedings this winter.

To all who contributed in so many ways to make this program possible, we say "Thanks".

We also sincerely thank you hockey fans for your patronage in the past. We hope that you rabid and loyal fans of Peace River and surrounding district will lend your best support to the 1961-62 edition of the Stampeders—the type of fan support that the team members will all long remember!

There was once a man who had a bright idea and decided he would invent a drink called "2 UP". He did this but the drink never caught on with the public, so he invented "3 UP" and it was a flop too. However this man kept working away and he then invented "4 UP", "5 UP" and finally "6 UP". None of them sold, even though they were better drinks than KIK. None of them sold so he quit in discouragement.

Right after that somebody invented a drink called "7 UP", and it was, as you all know, a great success. From this we learn, and so can each team in the North Peace Hockey League, never to quit too soon, and keep trying till you come up with a winner.

The mint is the only business that makes money without advertising—therefore, I am glad to give this ad to further the interest of the North Peace Hockey League in general and the Stampeders in particular, although they should change their name to the "Twelve Footers". You read it here first.
